FabriTec

Furniture Ltd

Fabritec Furniture was established in 2008. The aim of the company is to use innovation in design, manufacture and distribution to provide the products demanded by the modern market place. FabriTec Furniture Ltd is one of the UK's leading furniture manufacturers for the commercial market, supplying the Office, Educational, Hotel, Residential and Healthcare sectors. We design and produce bespoke furniture solutions for corporate clients from the Banking sector through to large Retailers. We also supply into the public sector, providing products for government departments and further educational establishments.

Our manufacturing facility uses modern CNC machinery operated by experienced operators to produce furniture and panels in a wide range of shapes and sizes. A programme of continuous replacement ensures that equipment is able meet the demands of the market for contemporary designs and features.

We offer a full CAD service to produce working drawings for product designs including 3D visuals, which can be used by our customers to assist with product presentations and tender processes. Although we are a manufacturing specialist, we can aid our clients with every aspect of design and specification, this includes site visits to assist space planners or the sourcing of alternative materials for architects.

FabriTec is based in a purpose built 62,000 square foot manufacturing facility in North Kent, this allows us to process high and low volume orders simultaneously, this means we can offer realistic minimum order volumes to meet the requirements of your client. Our geographical location benefits from excellent transports links, we are 40 minutes from the M25 allowing access to London, the Midlands and beyond.

We have the facilities to pack, label and ship products to customer specific requirements. Finished products are shipped on our own fleet of vehicles with our own experienced drivers ensuring the correct handling of products from raw material to delivery. Fabritec is committed to exceeding our customer requirements and environmental responsibilities. We operate an ISO9001 quality system and hold an FSC® certification.

MOBILE UNITS

The Roam Mobile range offers stylish and flexible storage systems for the office environment. A variety of clean, modern designs that complement our desking range are mounted on 65mm diameter lockable castors. Each castor has a load capacity of 50kg which allows the mobile units to be used as temporary seating with the use of cushions. Each drawer is metal sided incorporating an 18mm MFC base and back with mounted metal runners. Our two and three drawer mobile pedestal units come with a pen tray in the top drawer. Filing drawers are fitted with a metal filing bar that enables the use of A4 filing pockets either left to right or front to back. All drawers are lockable via a locking bar system, and 128mm centre bow handles come as standard.

MOBILE DIVIDERS

Our mobile dividers units are constructed of 18mm and 25mm with 65mm grey castors. Dividers are being increasingly incorporated in open plan working environments. Our mobile dividers provide team members the opportunity to divide their workspace into smaller work areas that can be used for meetings or training areas, making these versatile as well as a great addition to add playful elements to a work space.

CUPBOARDS, BOOKCASES & TAMBOURS

The Avant storage offers three options within the same carcass design at 802mm and 1002mm external widths. Our quality carcasses are constructed from 18mm MFC with 25mm tops and plinths. Our cupboards and tambours come with an option of tonk strip that allows for adjustable shelving, meanwhile our bookcase units are offered to include centre holes. Cupboards 1600 high and above come complete with an Espagnolette locking system whereas cupboards under 1600 high use a different rim lock and plate system where Espagnolette or slide bolts are not necessary. The doors hang on 110 degree opening and fully adjustable. Tambour doors are finished in silver, however white is also available when specified.

■ CUPBOARDS WITH METAL LADDER STRIP

Our ladder strip is a metal component routed into the sides of the unit. This works along side standard MFC adjustable shelving and metal lateral filing shelves (foolscap). These can be ordered from page 8.

STORAGE INTERNAL FITTINGS

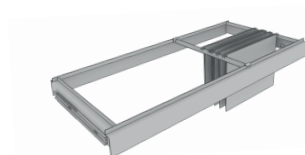

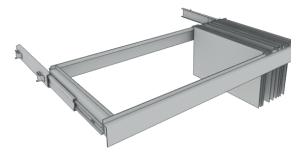

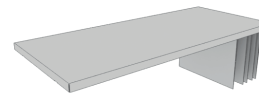

All internal fittings for storage units need to be ordered separately. MFC shelves are 25mm. Dual purpose metal lateral filing shelves accept foolscap filing as standard. We offer optional conversion rails for the use of A4 filing. However, should your order consist of quantities of 50+ there is the option to have Pullout filing frames and metal shelves at A4 depth without the need for conversion rails.

CREDENZA

Credenza storage units are constructed from 18mm MFC with 25mm tops and plinths. 25mm MFC shelves are included that are height adjustable on the internal ladder strip. The 3 door unit has a large double door compartment and a separate single door compartment. The 4 door unit and sliding door units have two compartments. Each compartment is individually locked and all storage units include height adjustable feet.

FILING CABINETS

Our range of filing cabinets accommodate foolscap hanging files on full extension runners. Each drawer includes an efficient anti-tilt locking feature that allows only one drawer to be opened at any one time. The height options start at desk height, and the 25mm tops have the grain running along the 600mm depth, so the units can be used at the end of desk returns. All internal material comes in black.

SIDE FILING CABINETS

Our side filing cabinets share the same structural and anti-tilt features as the standard filing cabinets. The side filers offer Foolscap filing front to back and A4 filing side to side with the use of optional rails within a 15mm MFC drawer construction. The unit can be used at the end of desking with grain running with the 600mm depth, and at 740mm and 1100mm high to match desk height and standard screen height. All internal material comes in black.

PEDESTALS

For personal storage the pedestal is an essential part of any office design. The Avant pedestal range comes in a wide variety of heights and drawer configurations that can be combined with both the Unite and Zone desking ranges. An extremely solid construction consists of 18mm MFC carcass with 25mm tops on all desk high units. Metal runners fitted with a filing drawer frame that allows the use of either A4 or Foolscap filing pockets. The filing drawers come complete with an anti tilt support castor beneath the drawer. Drawer fronts overlay the carcass sides by a further 5mm each side to allow finger pull opening should you not choose the option for handles. All drawers are lockable via a locking bar system. An optional pen tray is available for all pedestals.

DESK END STORAGE RANGE

Desk end storage units are a convenient and simple storage solution for the busy office environment. With personal storage available, hot desking becomes more manageable as employees can keep their belongings close at hand. Filing management is also made easier with desk end storage, with files and documents easily accessible and organized. These units also save on valuable office space, making them an ideal solution for any office big or small.

DESK END STORAGE RANGE

Our desk end storage solution is designed to be modular so that customers can customize it according to their unique needs. The storage system consists of two different modules, which can be combined in various ways to create the perfect configuration. Customers can choose from a locker, cupboard, shelf or draw filing module.

4 COMPARTMENT LOCKER MODULE

DESK END STORAGE

DESK END TOPPER RANGE

It is important to order our flyover top with any two modules as these are essential element to integrate the desk tops and storage modules. An optional planter can also be added to our desk-end storage to bring a touch of greenery to the workspace, reducing stress levels by brining visual relief. Please note that liners are NOT included.

38MM BREAKOUT SEATING

BENCH SEATING RANGE

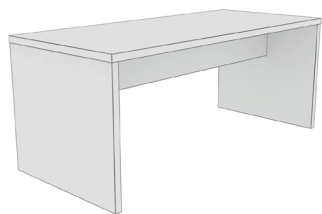

Bring a touch of style to your canteen or break out area with our restaurant style bench system. Built in 38mm thick MFC our system is designed to be stylish and flexible. Our minimalist designs are reminiscent of the style of bench found in Japanese Ramen bars or western restaurants such as Wagamama. Bench systems are becoming increasingly popular in the working environment, especially break out areas and offer an attractive, versatile alternative to conventional eating and desking. The 'social' break out area or canteen is a growing theme in the place of work. Bench seating is a versatile product allowing colleges to socialise over their breaks whilst allowing an individual to have an element of privacy with the single sided bar. This product is also adaptable for any space, weather its used as a standalone bar or as a group that long run along the span of the room.

38MM BREAKOUT SEATING

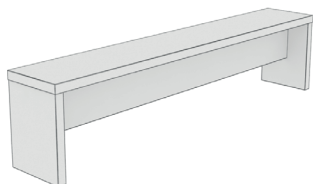

BENCH SEATING RANGE

The breakout seating range is constructed out of 38mm MFC, this helps to increase the strength of these units. Please be sure to refer to page 23 for our standard 38mm finishes.

Panel Fabrication

FabriTec has the capabilities to produce panel products in a wide range of shapes and sizes. We can produce to customer supplied drawings or produce working drawings in house, based on customer specifications and requirements.

3D Rendering & Visualisation

Our design department uses the most advanced tools on the market to produce photo real product renders and room visualisation, this is becoming an ever more important tool in winning tenders.

Seamless Laser Edging

Laser edging eliminates visible glue lines on panel edges giving a seamless appearance. This is available in our standard white MFC board.

Direct Deliveries

We operate our own fleet of vehicles with experienced drivers, trained in the correct handling of our product.

Barcodes and Bespoke Labeling

We can label and barcode products to customer specification, this means we can apply personalised product codes and customer requested information. This speeds up the booking in procedure when goods are delivered to our customers premises

Furniture Assembly

FabriTec can produce fully assembled furniture to customer supplied designs, alternatively our in house design team can produce drawings and manufacture prototypes if required.

Product Redesign and Optimisation

FabriTec has a history of redesigning traditional solid wood and veneer products using realistic MFC decors to achieve an identical aesthetic appearance at a significantly reduced cost.

Compact Density Fibreboard (CDF)

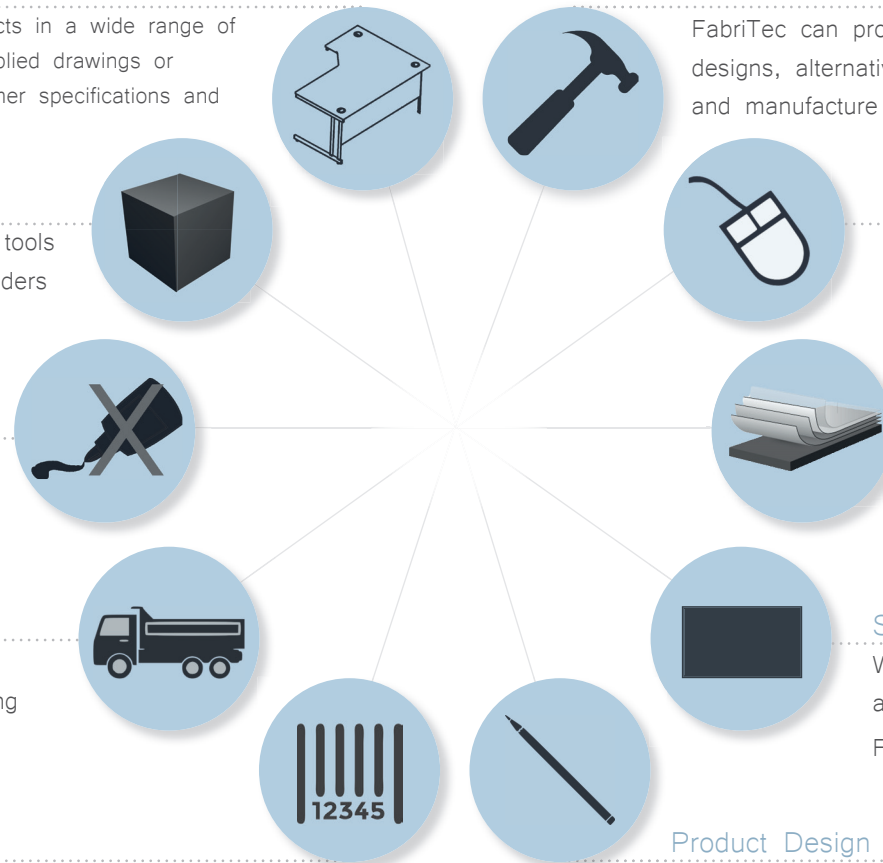

CDF is tough moisture resistant, durable board designed as an alternative to solid core laminates such as Trespa.

Solid Wood Tops

We offer a range of butcher block style tops machined and finished to customer specification. This is fully FSC® certified.

Product Design

Our design and prototype departments work closely with customers to develop new products and ranges. The process starts with a design brief and progresses through to full working prototype and finally to delivered product.

Design and specification are correct at time of printing. Fabritec Furniture Ltd reserves the right to alter design and specification without notice.
