FabriTec

Furniture Ltd

Fabritec Furniture was established in 2008. The aim of the company is to use innovation in design, manufacture and distribution to provide the products demanded by the modern market place. FabriTec Furniture Ltd is one of the UK's leading furniture manufacturers for the commercial market, supplying the Office, Educational, Hotel, Residential and Healthcare sectors. We design and produce bespoke furniture solutions for corporate clients from the Banking sector through to large Retailers. We also supply into the public sector, providing products for government departments and further educational establishments.

Our manufacturing facility uses modern CNC machinery operated by experienced operators to produce furniture and panels in a wide range of shapes and sizes. A programme of continuous replacement ensures that equipment is able meet the demands of the market for contemporary designs and features.

We offer a full CAD service to produce working drawings for product designs including 3D visuals, which can be used by our customers to assist with product presentations and tender processes. Although we are a manufacturing specialist, we can aid our clients with every aspect of design and specification, this includes site visits to assist space planners or the sourcing of alternative materials for architects.

FabriTec is based in a purpose built 62,000 square foot manufacturing facility in North Kent, this allows us to process high and low volume orders simultaneously, this means we can offer realistic minimum order volumes to meet the requirements of your client. Our geographical location benefits from excellent transports links, we are 40 minutes from the M25 allowing access to London, the Midlands and beyond.

We have the facilities to pack, label and ship products to customer specific requirements. Finished products are shipped on our own fleet of vehicles with our own experienced drivers ensuring the correct handling of products from raw material to delivery. Fabritec is committed to exceeding our customer requirements and environmental responsibilities. We operate an ISO9001 quality system and hold an FSC® certification.

BENCH SEATING

BENCH SEATING

Bring a touch of style to your canteen or break-out area with our restaurant style bench system. Built in 38mm thick MFC our system is designed to be stylish and flexible. Our minimalist designs are reminiscent of the style of bench found in Japanese Ramen bars or western restaurants such as Wagamama. Bench systems are becoming increasingly popular in the working environment, especially break out areas and offer an attractive, versatile alternative to conventional eating and desking.

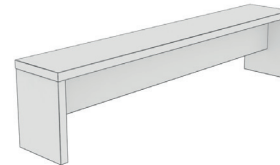

BENCH SEATING

The breakout seating range is constructed out of 38mm MFC, this helps to increase the strength of these units. Please be sure to refer to page 16 for our standard 38mm finishes.

BREAKFAST BAR

BREAKFAST BAR

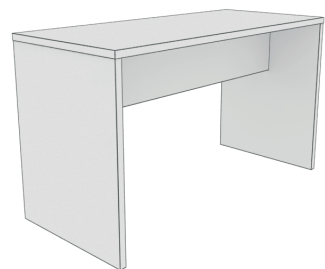

The 'social' break out area or canteen is a growing theme in the place of work. A breakfast bar is a versatile product allowing colleges to socialise over their breaks whilst allowing an individual to have an element of privacy with the single sided bar. This product is also adaptable for any space, whether its used as a standalone bar or as a group that long run along the span of the room.

BOOTHS

BOOTHS

Booths are becoming increasingly popular in the working environment and offer an attractive, versatile alternative to conventional desking. A booth is a great space that provides a private space in any office or break out area, to think, work or for informal meetings. Available for an individual, twin or small groups. Available in range of sizes our system can be configured to maximize the available space.

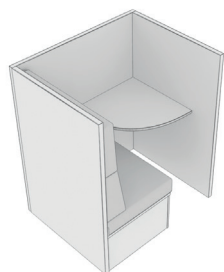

BOOTH SEATING

MOBILE SEATING & DIVIDERS

Breakout areas help to stimulate employees to engage with their working environment and as a result boosting moral and creativity. Mobile dividers can be diverse and used in most working environments. These mobile units are a great solution for creating temporary meeting spaces or to help break up an open plan working space.

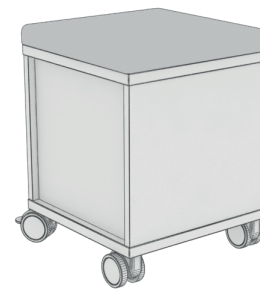

MOBILE SEATING

Our mobile seating cube units are entirely constructed of 18mm with 65mm grey castors. There are three different variations of our mobile cubes that allow for all solutions, whether its storage or inset side to allow for easy lifting.

- Includes an open side to allow for storage.

MOBILE DIVIDERS

Our mobile dividers units are constructed of 18mm and 25mm with 65mm grey castors. Dividers are being increasingly incorporated in open plan working environments. Our mobile dividers provide team members the opportunity to divide their workspace into smaller work areas that can be used for meetings or training areas, making these versatile as well as a great addition to add playful elements to a work space.

Panel Fabrication

FabriTec has the capabilities to produce panel products in a wide range of shapes and sizes. We can produce to customer supplied drawings or produce working drawings in house, based on customer specifications and requirements.

3D Rendering & Visualisation

Our design department uses the most advanced tools on the market to produce photo real product renders and room visualisation, this is becoming an ever more important tool in winning tenders.

Seamless Laser Edging

Laser edging eliminates visible glue lines on panel edges giving a seamless appearance. This is available in our standard white MFC board.

Direct Deliveries

We operate our own fleet of vehicles with experienced drivers, trained in the correct handling of our product.

Barcodes and Bespoke Labeling

We can label and barcode products to customer specification, this means we can apply personalised product codes and customer requested information. This speeds up the booking in procedure when goods are delivered to our customers premises

Furniture Assembly

FabriTec can produce fully assembled furniture to customer supplied designs, alternatively our in house design team can produce drawings and manufacture prototypes if required.

Product Redesign and Optimisation

FabriTec has a history of redesigning traditional solid wood and veneer products using realistic MFC decors to achieve an identical aesthetic appearance at a significantly reduced cost.

Compact Density Fibreboard (CDF)

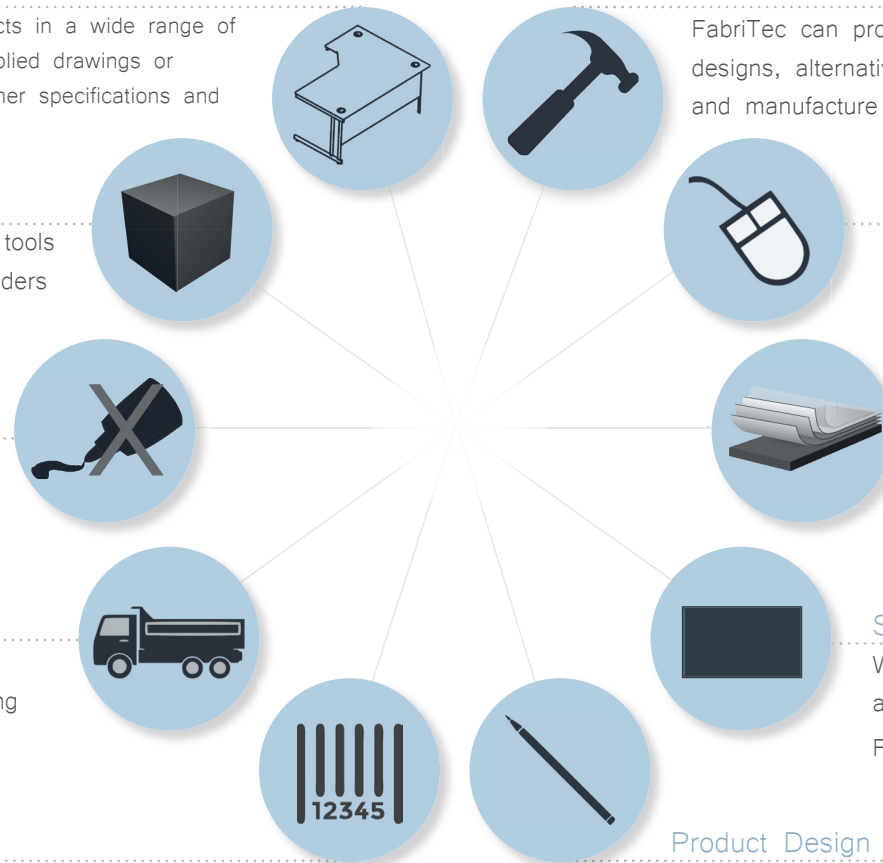

CDF is tough moisture resistant, durable board designed as an alternative to solid core laminates such as Trespa.

Solid Wood Tops

We offer a range of butcher block style tops machined and finished to customer specification. This is fully FSC® certified.

Product Design

Our design and prototype departments work closely with customers to develop new products and ranges. The process starts with a design brief and progresses through to full working prototype and finally to delivered product.

Design and specification are correct at time of printing. Fabritec Furniture Ltd reserves the right to alter design and specification without notice.
